Intelligent Energy Europe

Damien COCARD

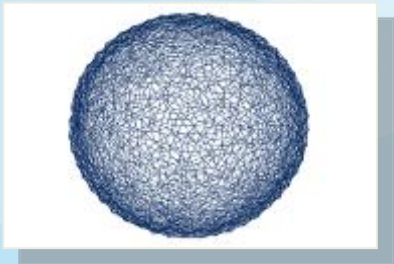

EACI, European Commission

Brussels, 18/05/2011

EU intelligent energy

> **EU 2020 energy strategy**
Competitive, sustainable and secure energy

> **Post-Cancun**
Shared commitment to counter climate change

> **Global goals need local action**
No change without many small, concrete steps

Intelligent Energy – Europe in a nutshell

IT'S YOUR CALL

IEE pioneers new ideas and promotes best practices in buildings, industry, infra-structure and transport+

Encourages the uptake of proven intelligent energy solutions

Supports EU renewable energy and energy efficiency policies and helps reach the 2020 targets

Is not a technology development programme, unlike FP7

Works to make Europe more competitive and innovative

€730 million from 2007-13

IEE delivers on:

EU energy efficiency and renewables objectives

Intelligent Energy Europe

- Creating and spreading effective methods and best practice
- Training and education
- Know-how transfer
- Market intelligence
- Inform policy development and implementation

Real changes on the ground

IEE projects?

Over 500 IEE-supported projects across Europe, more than 3,000 participants from 30 countries...

Energy efficiency

Renewable energy sources

Integrated initiatives

Energy-efficient transport

→ Important contributions at EU level

LOCAL ACTION FOCUS (integrated initiatives)

IEE supporting local actions

Local Energy Leadership
+
Mobilising Local Energy Investments
+
Sectoral key actions

Outputs:

Technical support to cities and regions / Energy agencies
Development of Sustainable Energy Actions Plans
Implementation of Energy measures and investments
Dissemination activities

Intelligent Energy – Europe: what's in the box for local actors?
